POST-PUNK FROM BERLIN

Dark riffs. Driving grooves.

THE BAND

Void Queen blend post-punk with the atmosphere of dark wave, the expansive sound of post-rock and the raw edge of '70s punk. Vilte's powerful voice cuts through dark guitars, distinctive bass lines and driving drums.

On stage, the Berlin four-piece channel that sound into an intense, atmospheric performance: clear melodies, punchy arrangements and a groove that gets bodies moving.
